## RECEPTION - YEAR 2 ZOO VISIT

This term the R-2 class have been learning about Australian animals and reptiles. We concluded our topic by a visit to the Adelaide Zoo.

During the visit, Emily an Education Officer at the zoo took us into her special classroom. We were able to touch the skins of a variety of animals.

- The crocodile skin was smooth and bumpy and in the mouth the teeth were very sharp.
- The spikes of the echidna were smooth and the ends were pointy.
- The koala had a thick pad of fur on its' bottom because it sits asleep for twenty hours each day.

Outside in the enclosure where we could mingle with the goats, deer and kangaroos, the young kangaroo was very soft but his claws were sharp.

On the way home we had to stop at the Fruit Fly quarantine bin because we couldn't bring our fruit back into the Riverland.

We arrived back tired but happy that we had had such a lovely day exploring the zoo.
